Capital Fleet Solutions provides a full van set up service which is flexible to the specific needs of the plumbing sector.

You may only want a van and nothing else, or maybe a full set up with van branding. Either way, Capital Fleet Solutions has fantastic relationships with all the major van suppliers and can take the hassle out of your hands, delivering you with a fully set-up, work-ready van to your desired location. That way, you can focus on other important jobs.

And if you want finance or leasing options to support you, we're a specialist, **particularly in Finance Leasing**, even helping those that may have struggled to get finance in the past.

## Why choose us?

### No Hassle.

By using Capital Fleet Solutions, all you need to do is tell us your requirements and we can put together a package for you that meets your budget.

When you give us the green light, we'll organise everything for you, if that is your preference. So all you have to do is sit back and wait for your new van to arrive.

### Getting on the Road and Delivering.

We deliver our vans directly to the workplace, work-ready, so you can start delivering your business as soon as possible.

**Protecting Your Brand.** We work closely to take extra care that any van wrapping is completed to your corporate standard, promoting you all the time and weathering the challenges of your daily work life.

**Finance Experts.** We are experts in all types of finance (and particularly competitive with Finance Lease products), so even if you aren't sure whether you will be able to secure funding, it's best to give us a call.

With a wide range of finance providers, we can match your credit application with the best company at competitive rates. So get in touch today and see whether we can help you.

## All finance products are available:

1) **Finance Lease.** This provides the option for VAT-registered users to pay for vans off balance sheet, spreading the cost of the VAT to the monthly payments rather than requiring paying in full upfront, with or without a balloon and no mileage restrictions. We offer incredibly competitive rates on our Finance Lease products.

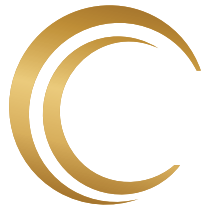

2) **Hire Purchase.** Under an HP Agreement, you hire the van and then pay an agreed amount by instalments. Once all payments have been made, you will own the van. There is no balloon payment at the end of the agreement. You can settle the agreement at any time.

3) **Contract Hire.** This is a leasing finance option, available to sole traders, partnerships and limited companies. It represents an agreement between two parties to lease a vehicle for a set time period (and mileage) at a fixed monthly cost.

We always advise speaking to a professional before taking out any finance products.
